**DISCRETIONARY GRANT PROGRAM**

**PC 2: DIRECT SERVICE INTERVENTION**

#	Output Measure	Definition	Data Grantee Reports	Record Data Here
24	OJJDP grant funds awarded for intervention services	The amount of OJJDP grant funds in whole dollars that are awarded for program intervention services. Program records are the preferred data source.	A. OJJDP grant funds awarded to program for intervention services	
25	Number of intervention service slots created	The number of new intervention slots created during the reporting period as a result of OJJDP grant funds. Program records are the preferred reporting source.	A. The number of intervention slots created during the reporting period using OJJDP funds	
26	Number of youth or youth and families served	An unduplicated count of the number of youth (or youth and families) served by the program during the reporting period. Definition of the number of youth (or youth and families) served for the reporting period is the number of youth (or youth and families) carried over from the previous reporting period plus new admissions during the reporting period.	A. Number of program youth (or youth and families) carried over from the previous reporting period, plus new admissions during the reporting period	
27	Number of programs that implement an evidence based program or practice	Number and percent of programs that implement an evidence based program or practice. Evidence based programs and practices include program models that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance abuse. Model programs can come from many valid sources (e.g., Blueprints, OJJDP's Model Programs Guide, SAMHSA's Model Programs, State Model Program resources, etc.).	A. Number of programs implementing an evidence based program or practice intervention model B. Number of programs C. A/B	
28	Number of youth or youth and families served by a program with an evidence based program or practices intervention model	Number and percent of youth (or youth and families) served using an evidence-based program or practices intervention model. Program records are the preferred source of data.	A. Number of youth or youth and families receiving an evidence based program or practices intervention model B. Number of program youth or youth and families C. A/B	
29	Number of program staff who have completed training in program area	Number and percent of program staff who have completed training or a formal learning opportunity during the reporting period.	A. Number of program staff completing training or formal learning opportunity B. Number of program staff C. A/B	
30	Average length of stay in program	The average length of time (in days) that clients remain in the program. Include data for clients who both complete program requirements prior to program exit and those who do not. Program records are the preferred data source.	A. Total time in days between program entry and program exit regardless of reason for exit B. Number of clients to exit the program C. Average (A/B)

#	Output Measure	Definition	Data Grantee Reports	Record Data Here
31	Number of service hours completed	The number of hours of service completed by program youth during the reporting period. Service is any explicit activity (such as program contact, counseling sessions, course curriculum, community service, etc.) delivered by program staff or other professionals dedicated to completing the program requirements. Program records are the preferred data source.	A. Total number of program youth service hours B. Number of youth enrolled in program C. Percent (A/B)	
32	Number of program youth under supervision in the community following release from the facility (REENTRY)		A. Number of program youth who are subject to some term of supervision upon release from the facility (REENTRY)	
33	Increased number of pre-release services being provided to program youth (REENTRY)	Increased number of pre-release services being provided to program youth in the following categories: Cognitive behavioral therapy or other counseling; Life skills; Employment, Education; Substance abuse; Mental health; Overall health; Family strengthening; Anger management; Mentoring; Faith based; and/or Other.	A. Number of youth receiving Cognitive behavioral therapy or other counseling B. Number of youth receiving Life skills services C. Number of youth receiving Employment services D. Number of youth receiving Education services E. Number of youth receiving Substance abuse services F. Number of youth receiving Mental health services G. Number of youth receiving Overall health services H. Number of youth receiving Family strengthening services I. Number of youth receiving Anger management services J. Number of youth receiving Mentoring services K. Number of youth receiving Faith based services L. Number of youth receiving Other services	
34	Number of families with at least one parent/guardian participating in a majority of relevant services (REENTRY)	Number of families with at least one parent/guardian participating in a majority of relevant services (e.g., family counseling, family-oriented recreation activities, accompanying youth to court and other appointments)	A. Number of families with youth participating in the program with at least one parent/guardian participating in a majority of relevant services B. Number of families with youth served during the reporting period	
35	Percent decrease in gang-related incident arrests (GANG)		A. Number of gang-related incident arrests B. Total number of arrests C. Percent of arrests that are gang-related	

**OFFICE OF JUVENILE JUSTICE AND DELINQUENCY PREVENTION**  
**DISCRETIONARY GRANT PROGRAM**

**PC 2: DIRECT SERVICE INTERVENTION**

#	Output Measure	Definition	Data Grantee Reports	Record Data Here
36	Percent decrease in gang-related homicides (GANG)		A. Number of gang-related homicides B. Total number of homicides C. Percent of homicides that are gang-related	
37	Percent decrease in gang-related aggravated assault (GANG)		A. Number of gang-related aggravated assaults B. Total number of aggravated assaults C. Percent of aggravated assaults that are gang-related	
38	Percent decrease in gang-related robberies (GANG)		A. Number of gang-related robberies based on official records B. Total number of robberies C. Percent of robberies that are gang-related	
39	Number of planning activities conducted (GANG)	Activities include meetings held, needs assessments undertaken, etc.	A. Number of planning activities conducted during the reporting period	
40	Number of Service Hours Completed by program youth (SMART)		A. Number of service hours completed by program youth

#	Outcome Measure	Definition	Data Grantee Reports	Record Data Here
41	<b>Number and percent of youth or youth and families completing program requirements (short term)</b>	Number and percent of youth (or youth and families) who have successfully met all program obligations and requirements. Program obligations will vary by program, but should be a predefined list of obligations or requirements that clients must meet prior to program completion. Program records are the preferred data source.	A. Number of program youth (or youth and families) exiting the program having successfully completed all program obligations and requirements B. Number of youth (or youth and families) exiting the program for all reasons C. A/B	
42	<b>Number and percent of youth exhibiting the desired change in targeted behaviors (short-term)</b>	Must select at least one measure between 2A and 2M. Selection should be based on program goals and activities.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth served during the reporting period. C. A/B	
43a	<b>Social competence (short term)</b>	The number of youth who have exhibited an improvement in social competence. Social competence is defined as the ability to achieve personal goals in social interaction while maintaining positive relationships with others over time and across situations. Self-report or staff ratings are the preferred data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	
43b	<b>School attendance (short term)</b>	The number of program youth who have exhibited an increase in school attendance during the reporting period. Self-report or staff ratings are most likely data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	
43c	<b>GPA (short term)</b>	Number and percent of program youth who exhibited an increase in GPA during the reporting period. Self-report or staff ratings are most likely data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	
43d	<b>GED (short term)</b>	Number and percent of program youth who earned a GED (through the program) during the reporting period. Self-report or staff ratings are most likely data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	
43e	<b>High School Completion (short term)</b>	The number of youth who have completed High School during the reporting period. Program records are the preferred data source.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B

#	Outcome Measure	Definition	Data Grantee Reports	Record Data Here
43f	Job skills (short term)	Number and percent of program youth who exhibited an increase in job skills during the reporting period. Self-report or staff rating is most likely data source.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	
43g	Employment status (short term)	The number of program youth who have exhibited an improvement in employment status during the reporting period. Self-report or staff rating are most likely data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	
43h	Family relationships (short term)	Number and percent of program youth who exhibited an improvement in family relationships during the reporting period. Self-report, staff rating are most likely data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	
43i	Family Functioning (short term)	The number of youth, or youth and families, who have exhibited an improvement in family functioning. Self-report or staff ratings are the preferred data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	
43j	Antisocial behavior (short term)	The number and percent of youth who have exhibited a decrease in antisocial behavior during the reporting period. Self-report or staff ratings are the preferred data source. Anti-social behavior: A pervasive pattern of behavior that displays disregard for and violation of the rights of others, societal mores, or the law (such as deceitfulness, irritability, consistent irresponsibility, lack of remorse, failure to conform to social norms).	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	
43k	Substance use (short term)	The number and percent of program youth who have exhibited a decrease in substance use during the reporting period. Self-report or staff ratings are most likely data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	
43l	Gang-related activities (short term)	The number and percent of program youth who have exhibited a decrease in gang activities during the reporting period. Self-report or staff ratings are the most likely data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B

#	Outcome Measure	Definition	Data Grantee Reports	Record Data Here
43m	Change in Knowledge (short term)	The number of youth who have exhibited an increase in knowledge.	A. Number of youth with the noted knowledge change. B. Number of youth in the program who received services for this behavior C. a/b	
44	Number of youth or youth and families served with whom an evidence based program or practice was used (short term)	The number and percent of youth with whom an evidenced based program or practice was used. Evidence based program and practice models include program models that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance abuse. Model programs can come from many valid sources (e.g., Blueprints, OJJDP's Model Programs Guide, SAMHSA's Model Programs, state model program resources, etc.)	A. Number of youth or youth and families with whom an evidence based program or practice was used during the reporting period. B. Number of youth or youth and families served during the reporting period. C. Percent A/B	
45	Number and percent of program youth who are satisfied with the program (short term)	The number and percent of program youth who are satisfied with the program in such areas as staff relations and expertise, general program operations, facilities, materials, and services. Self-reported data collected using evaluation or assessment forms are the preferred data source instrument.	A. Number of program youth who are satisfied with the program as presented through preferred data collection instruments B. Number of program youth who have returned data collection instruments C. A/B	
46	Number and percent of program families who are satisfied with the program (short term)	The number and percent of program families who are satisfied with the program in such areas as staff relations and expertise, general program operations, facilities, materials, and services. Self-reported data collected using evaluation or assessment forms are the preferred data source instruments.	A. Number of program families who are satisfied with the program through data instruments B. Number of program families that have returned instruments C. A/B	
47	Number and percent of program staff who are satisfied with the program (short term)	The number and percent of program staff who are satisfied with the program in such areas as staff relations and expertise, general program operations, facilities, materials, and services. Self-reported data collected using evaluation or assessment forms are the preferred data source instruments.	A. Number of program staff who are satisfied with the program through data instruments B. Number of program staff that have returned instruments C. A/B	
48	Number and percent of program staff with increased knowledge of program area (short term)	The number and percent of program staff who gained a greater knowledge of the program area through trainings or other formal learning opportunities. Appropriate for any program whose staff received program-related training. Training does not need to have been given by the program. Self-report data collected using training evaluation or assessment forms are the expected data source.	A. Number of program staff who have increase in knowledge about program area B. Number of program staff trained C. A/B

#	Outcome Measure	Definition	Data Grantee Reports	Record Data Here
49	<b>Number and percent of program youth who RE-OFFEND (Short Term Measure)</b>	<p>The number and percent of participating program youth who were arrested or seen at a juvenile court for a new delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.</p> <p>The number of youth tracked should reflect the number of program youth that are followed or monitored for new arrests or offenses. Ideally this number should be all youth served by the program during this reporting period.</p> <p>Ex. If I am serving 100 youth in my program, A would be 100. If I am following up with 50 of them, B would be 50. Of these 50 program youth I'm tracking, if 25 of them were arrested or had a delinquent offense during this reporting period, then C would be 25.</p>	<p>A. Total number of program youth served</p> <p>B. Number of program youth tracked during this reporting period</p> <p>C. Of B, the number of program youth who had a new arrest or delinquent offense during this reporting period</p> <p>D. Number of program youth who were recommitted to a juvenile facility during this reporting period</p> <p>E. Number of program youth who were sentenced to adult prison during this reporting period</p> <p>F. Number of youth who received another sentence during this reporting period</p> <p>G. Percent <b>recidivism</b> (C/B)</p>	
50	<b>Number and percent of program youth who RE-OFFEND (Long Term Measure)</b>	<p>The number and percent of participating program youth who were arrested or seen at a juvenile court for a new delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.</p> <p>The number of youth tracked should reflect the number of program youth that are followed or monitored for new arrests or offenses 6-12 months after exiting the program.</p> <p>Ex. I have a lot of youth who exited my program 6-12 months ago, but we are only tracking 100 of them, so A is 100. Of these 100 program youth that exited the program 6-12 months ago 65 had a new arrest or delinquent offense during this reporting period, so B is 65.</p>	<p>A. Number of program youth who exited the program 6-12 months ago that you are tracking</p> <p>B. Of A, the number of program youth who had a new arrest or delinquent offense during this reporting period</p> <p>C. Number of program youth who were recommitted to a juvenile facility during this reporting period</p> <p>D. Number of program youth who were sentenced to adult prison during this reporting period</p> <p>E. Number of youth who received another sentence during this reporting period</p> <p>F. Percent of Long Term <b>recidivism</b> (B/A)</p>	
51	<b>Number and percent of program youth who are RE-VICTIMIZED (Short Term Measure)</b>	<p>The number and percent of youth who were re-victimized. Appropriate for any youth-serving program.</p>	<p>A. Total number of program youth served</p> <p>B. Number of program youth tracked during this reporting period for victimization</p> <p>C. Of B, the number of program youth who were <b>re-victimized</b></p> <p>D. Percent <b>re-victimization</b> (C/B)</p>	
52	<b>Number and percent of program youth who are RE-VICTIMIZED (Long Term Measure)</b>	<p>The number and percent of youth who were re-victimized. Appropriate for any youth-serving program.</p>	<p>A. Number of program youth who exited the program 6-12 months ago that you are tracking for victimization</p> <p>B. Of A, the number of program youth who were <b>re-victimized</b> during this reporting period</p> <p>C. Percent of Long Term <b>re-victimization</b> (B/A)</p>
